WorkForce Pro WF-5690DWF

Cut up to 50% of your printing costs[1] and up to 80% of your energy consumption[1] with this 4-in-1 business inkjet printer.

With features designed for easy business integration, the 4-in-1 multifunction WF-5690DWF also benefits from low running costs, low power consumption and fast print speeds. Automatic double-sided printing, scanning, copying and faxing makes any job easy and efficient. Directly print and scan using a USB memory stick, and securely print using a PIN code to release jobs at the printer.

Low running costs
The WorkForce Pro WF-5690DWF has an up to 50 percent lower cost per page than competitive colour lasers[1] , saving you money as you take advantage of this printer's high capacity ink cartridges of up to 4,000 pages[2]. And there are fewer parts to replace than a laser.

Ecological
The WF-5690DWF uses up to 80 percent less power than competitive colour lasers[1] thanks, in part, to its no heat technology. No ozone gases are emitted, and an improved quiet print mode and no fan noise during or after printing makes it ideal for the work environment.

Save time
This efficient multifunction business printer is faster than a laser on typical print jobs[1], with print speeds of up to 34ppm in mono and 30ppm in colour, or 20ppm ISO print speed in both[3]. Its high paper capacity of 580 sheets means less time is spent refilling, and it has a high monthly duty cycle of up to 35,000 pages[4].

Built for business
PrecisionCore technology powers the output quality that Epson is known for, at the speeds required for office, commercial and industrial printing. Prints dry fast thanks to the DURABrite Ultra ink. Scan-to functions, LDAP support and PDL emulations help this printer easily integrate into the business environment. Its intuitive large colour touch-screen makes functions readily available, and the rear manual paper tray lets you print on a range of media.
